SCHOOL OF VEDIC MATHS

How to construct an Odd Order Magic Square like 3 x 3, 5 x 5, 7 x 7...

- 1. Start by writing 1 on the top row middle cell.
- 2. For the next number, go to the right side upper diagonal square.
- 3. If it is filled, write the next number below the present square

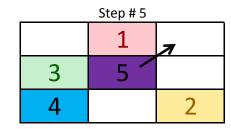

Step#2			2
1			
		3	
	2		

Since 1 has occupied the square, apply rule # 3.

Step # 4			
	1		
3	7		
4		2	

Step # 6		
	1	6
3	5	1
4		2

Since 4 has occupied the square, apply rule # 3.

	Step#7		
	1	6	7
3	5	7	
4		2	

	75 tep # 8	
8	1	6
3	5	7
4		2

Step # 9			
8	1	6	
3	5	7	
4	9	2
